Rule #1: Try It On!

When taking measurements, be sure the measuring tape is placed level, yet slightly relaxed around the front and the back.

Chest

Measure the circumference of the bust encompassing the largest point.

Waist

Measure the circumference of the waist at the smallest part of the waist.

IF YOU WEAR YOUR PANTS LOWER, STILL MEASURE AT THIS LOCATION.

Hips

Measure the circumference of the hips at the widest part of the hips and buttocks.

If your hips are larger than the size predictor's measurement range, you may want to go up a size.
